BENEFITS

Safe Anchor Handling

Precise, fast and safe deployment of anchor using high accuracy positioning tools.

High Accuracy

Sub-Metre level Surface Positioning system using DGNSS.

Ultimate Navigation Experience

Both absolute and relative positioning and navigation view.

Backup System

Wi-Fi Telemetry as backup reduces project downtime.

Prompt Mobilisation

With our trademark "BMS & TMS X_BOX™", we make your process more efficient and easy to deploy.

Remote Troubleshooting

Reduce downtime and eliminate personnel transfer between vessels.
